# Patchwork Memories T-Shirt Quilt Grid

If desired, you may use this 36-shirt grid to indicate how you would like your shirts arranged in your quilt. If, for example, you are ordering a 16 shirt quilt, just fill in the first four rows and first four columns with your shirt descriptions. Descriptions may include shirt color and /or image description.

If you don't have a preference on shirt placement, or you want us to decide placement for you, there is no need to return this form.
